Coastal Cane

DID YOU KNOW?
that sugarcane is high in electrolytes?

OUR STORY

In December of 2020, Yousuf knew it was time to make his dream of owning a sugarcane business reality. He reached out to industry expert, Ahmed, who saw potential in the idea.

With the same goal in mind, Yousuf and Ahmed united their efforts, and the journey toward launching Coastal Cane began!

By February of 2021, the partners had invested in their first sugarcane juicer. A month later, Coastal Cane was born!

Yousuf and Ahmed spent the following months securing their supply chain and studying the latest information on the sugarcane industry.

The following June, Coastal Cane held their first event selling their sugarcane juice!

WE OFFER CATERING!

Are you interested in booking Coastal Cane for catering, private events or pop-up events?

Give us a call!
